

Model FL228 Frequency to Voltage

Encore designs and manufactures frequency to voltage modules in a DIN-Rail package. Units are in stock and available for immediate delivery with multiple combinations of frequency and voltage. All units can be operated from unregulated DC power sources. For a small NRE charge, we can design a unit to meet your specification if it is not available in an existing version.*

- Engineered to your specifications
- Low priced
- Convenient DIN-Rail mount

Model FL228 Frequency to Voltage versions*

Version	F in	V FS	DC Power
000	10kHz	10V	24V
001	25kHz	16V	12V
003	150Hz	4.4V	12V
004	10kHz	5V	12V
008	100Hz	4.5V	24V
015	40kHz	10V	24V
018	100Hz	10V	24V
034	15kHz	5V	12V
042	40kHz	5V	24V
044	817-965Hz	0-5V	24V
